

■ ■ ■ ARE YOU IN COMPLIANCE?

3 COMMON TYPES OF COMPLIANCE

1. PII
Collecting personal information is a necessary function of businesses and local governments alike, which makes PII prevalent in any office. Protect personal information in your business practices.

2. PCI
PCI compliance is essential for taking credit card payments, even when outsourcing the actual payment process. While not law, violating these standards can lead to the inability to accept credit card payments.

3. HIPAA
HIPAA is a set of legal security standards for protecting health information. Dealing with medical information? Protect your business by being HIPAA compliant.

It is suggested to contact your attorney, security officer, or solicitor to find out what compliance is needed for your business, organization, or municipality.
