

# THE SEPARATION OF HOME AND WORK (FROM HOME)

5 CYBER SECURITY TIPS TO STAY CYBER SAFE WHILE WORKING FROM HOME.

**USE...**

## 01

A secure home or remote network for official work-related tasks.

## 02

Two-factor authentication (where possible) to log into networks, systems, and secure information.

## 03

Strong passwords.

## 04

Company-issued devices that are not visible to other devices on a home or remote network.

## 05

Company-issued email only.
