

# How to Prevent an Email Account Compromise

## 5 Tips to Help Keep Your Email Safe:

1. Keep software and hardware up to date.
2. Use strong passwords, and change them periodically. Use multifactor authentication where applicable.
3. Do not click on links within suspicious email - this includes "Click Here" and "Unsubscribe" links if the email is suspicious.
4. Do not type passwords into suspicious websites.
5. Use caution when accessing email (and other sensitive items like bank accounts) using public Wi-Fi.
