

HELP! I've Clicked a Phishing Link

Here's what to do right away if you've clicked a link, but have *not yet entered sensitive information* as a result of a phishing scam.

1.

If malware is suspected, disconnect from the network.

2.

Back up data to prevent it from being erased.

3.

Scan for malware.

4.

Change your password(s).

5.

Notify the FTC.

Visit www.ftc.gov to report a scam.
