

# REDIRECTED

without knowing it

Pharming attacks don't ask you to click - they **redirect** you.

Building **Digital** Experiences That Inspire.

We create modern, responsive websites and digital solutions that help brands grow and stand out online.

Watch Video

**INTENDED URL:**

<https://siteurl.com>

**FAKE URL:**

<https://siteurl.com.fake>

## WHAT'S THE DIFFERENCE?

**Phishing:**

someone tricks you into clicking

**Pharming:**

someone reroutes you without asking
